

# SE-ASIAN CLEAN ROOM SHOW 2026

20 TO 22 MAY 2026  
KLCC

Co-located with:  
**26th SE-Asian Healthcare & Pharma Show**

## SHOW PROFILE

---

- Clean Technology
- Laboratory Equipment & Supplies
- Pharmaceutical Equipment Packaging
- Medical Equipment & Solutions

Organisers:

**MALAYSIA**

**DENMARK**

***Exhibitors,***

You'll benefit from over 20 years of know-how in delivering just the right visitors to your booth.

While, SEAClean covers the entire cleanroom spectrum - it also enjoys the support from relevant CleanTech solutions manufacturers.

SE-Asia - the world's 4th largest economy is also reliable and predictable. And therefore the top choice for securing global supply chains for medical devices, pharma, food and electronics. Opening massive opportunities for 'clean' manufacturers.

**Kuala Lumpur is the best starting point:**

Malaysia's vibrant economy and sophisticated business climate is already a leading market for the EU, US and Northeast Asia.

*Malaysia - Fresh - Clean - Green is the perfect venue for the Show.*

**Exhibition with 200 international participants will welcome about 4000 cleanroom quality visitors.** Most of them from Malaysia-Singapore.

You'll find that all of them are ready to sit down to discuss fresh business opportunities.

At your disposal are all the visitor promotion tools, that actually work. **'Not just an exhibition' -get ready for seminars, vip tours and networking functions that actually benefits you.**

CLEANTech plays an important role within the Cleanroom Industry: Manufacturers of waste-handling, water, energy optimatisation to pollution control. . . will find it an excellent new business platform.

Lastly our Scandinavian Roots are a natural fit for 'clean & fresh.'

From marketing materials to the actual exhibition - it's simple and straight forward. And sustainability is not just a word - you'll experience this first hand.

With best wishes,

*S. S. Bhullar*

# Crowds Are Easy

We've always said - "Crowds are easy." And this still holds true after all these years. Exhibitors are not concerned about gate numbers but quality and the future return on their investment.

For cleanroom/tech - a very specialised area - our background and experience will definitely benefit our exhibitors.

- **Over 4000 extremely relevant visitors.**
- **This is possible by going back to the basics - all that works.**
- **Not Numbers But Quality and Relevance.**

**Visitors are delivered via a combination of:** Clean Databases, Seasonal Newsletters with timely Updates. Finally by personalised letters, faxes and call reminders. **Result? About 80 pct are pre-registered.**

**Exhibitors Play A Role:** Exhibitors assist by providing accurate personas that fit their requirements, indicate potential clients and submit quality summaries for our Show Previews. (With co. logos and advance appointment links)

**Networking Functions:** Our idea of networking is not an 'opening ceremony' but real on-and off the floor networking. From Happy Hours to Exhibitor Sponsored Seminars, that actually brings our exhibitors with their potential partners and end-users. And of course, we'll take the backstage - it's not about the organiser! This is ScandinaviaFresh at work.

**Last Day Feedback:** We look forward to the feedback such as "...everything is perfect, "our best exhibition experience..."
